PETITIONING THE COURT

To modify the conditions of supervised release as follows:

“The offender shall complete a mental health assessment and/or psychiatric evaluation as directed by the probation department.”

“The offender shall participate in a program approved by the probation department for mental health counseling, if necessary.”

On December 8, 2020, MATTHEWS signed a Probation Form 49, Waiver of Hearing to Modify Conditions of Probation/Supervised Release, to include the noted special conditions.

CAUSE

On July 2, 2020, TERRENCE MATTHEWS was released from custody after serving approximately 85 months of a 135-month sentence, having been granted a compassionate release, due to the Covid 19 pandemic. Following his release, he was orientated to his conditions of supervision and acknowledged an understanding and desire to comply.

On October 17, 2020, a routine urinalysis was conducted, at which time MATTHEWS tested positive for marijuana. As a result, he was referred to Shanle Psychological Services to determine if he could benefit from substance abuse treatment services. On November 21, 2020, a substance abuse assessment was conducted. MATTHEWS was described by the therapist as “open and honest” about his substance abuse history, as well as his history of trauma. MATTHEWS was clinically diagnosed with “Cannabis Use Disorder (severe); Unspecified Trauma and Stressor Related Disorder, and Problems r/t other Legal Problems.” Due to his self-reported “severe history of cannabis use and deficient coping strategies”, monthly individual therapy sessions were recommended. As noted, MATTHEWS openly discussed a history of childhood and adult trauma, which prompted the clinician to further recommend that he complete a mental health assessment and psychiatric evaluation; and participate in dual diagnosis treatment to address both substance abuse and mental health concerns, if necessary.

Based upon the offender’s history and the recommendations of his treating clinician, the probation department recommends that the noted special conditions be added. It is the clinician’s professional opinion that MATTHEWS may benefit from mental health services to develop an understanding of co-occurring mental health issues and resolve conflicts rooted in his traumatic experiences.

MATTHEWS has signed the Probation Form 49 waiver authorizing the modification of his conditions of supervised release. He has been advised of his right to counsel in this matter and has agreed to waive this right by signing the attached waiver of hearing form.

A criminal record check completed through Access to Law Enforcement Systems (ATLAS) conducted on December 8, 2020, revealed no new criminal activity.
